2. Approve agenda [8:05]

Mike wants to review the timeline. Agenda is approved with this addition.

3. Approve minutes from previous meeting(s) [8:10]

[Minutes of 2026-08-12 Meeting #563](#)

Minutes are approved.

Mike reports on the meeting with Tony Cox on OASIS processes. Other working groups had similar complaints to ours. Tony Cox asked whether the TC is interested in conformance tests.

4. Submission of OData V4.02 CSD02 for public review [8:15]

See 📌 [Prepare Version 4.02 Committee Specification Draft 02 #2267](#), ZIP files for pre-reading can be found [here](#).

i. Heiko makes the following motion:

I move that the TC approve **OData Version 4.02** Working Draft 02 uploaded as <https://groups.oasis-open.org/higherlogic/ws/public/download/73484/odata-v4.02-csd02.zip> as Committee Draft 02 and designate the Markdown version as authoritative. I further move that the TC approve submitting the aforementioned Committee Draft for 30 days of public review.

Hubert and Mike second. TC holds a

Full Majority Vote in support of the motion: 8 yes, 0 nos, 0 abstentions, 0 absences.

Motion passes.

After motion is passed, Ralf notes that the ABNF files included as additional artifacts in the ZIP still have the old date. To correct this, Heiko creates PR [🔗 Correct dates for CSD02 odata-abnf#153](#) and moves to merge it. Hubert seconds. No objections, motion passes.

Heiko produces a corrected ZIP file and makes the following motion:

I move that the TC approve **OData Version 4.02 Working Draft 02** uploaded as <https://groups.oasis-open.org/higherlogic/ws/public/download/73486/odata-v4.02-csd02.zip> as Committee Draft 02 and designate the Markdown version as authoritative. I further move that the TC approve submitting the aforementioned Committee Draft for 30 days of public review. This replaces the ZIP file submitted with the earlier motion.

5. Review timeline [9:15]

The [timeline](#) is updated with approval dates for OData V4.02 CSD02 (August 2026) and CS02 (September 2026, after 30 days of public review). Progression to OASIS Standard requires three statements of use. V4.01 statements came from [IBM](#), [SAP](#) and [Microsoft](#). TC members review the V4.02 minimal requirements that would mean for their implementations. November 2026 is set as the date for approving an OASIS Standard candidate, call for consent in January 2027 and approval of OASIS standard in February 2027.

Dates for Compact JSON 4.0 are shifted, public review from January to March 2027. Compact JSON will be discussed next week.

The topic of OData for MCP shall be taken up during the 30-day review of CSD02, on September 9. Olga offers to lead a discussion on the current status of MCP.
